THE FILM

Synopsis

Contestants wake into a horrific battle royale with a cruel twist, and must escape to discover its purpose. In the near future, your true self could be your downfall. 3 is an original twist on the battle royale film, with intense action and a heavily female cast, shot at the height of the pandemic just before lockdown. It is the directorial debut of writer, director and producer Peter Koevari.

IN HIS WORDS

Director's statement

3 is a visceral ride which nods to some of my most cherished genres, and my true directorial debut.

We filmed it during the height of the pandemic, just before our state went into lockdown, and what we have achieved with this film, we are incredibly proud to show.

This is an original twist on battle royale films, with a healthy dose of intense action, strong characters, a heavily female cast, and a firm aim at powerful storytelling.

Every step of the way has been dedication, passion, and hard work. From planning, casting, training, production, and a long and intense post-production path due to the heavy amount of VFX in the film.

The concept is prime for a feature adaptation, and we'd welcome those conversations.

We hope you enjoy the film, as much as we enjoyed making it.
